

*Eric B. Chandler Health Center is hiring a Community Health Worker to provide support to patients living with HIV as well as to conduct community-based outreach to ensure patients remain engaged in medical care and navigate supportive services (e.g. health insurance, mental health treatment, etc.). The ideal candidate would be bilingual (English/Spanish) and have shared life experiences with the HIV-positive patients served at Chandler Health Center. This staff will be integrated into existing clinical services so will work closely with the HIV physician, nurses, case managers and Patient Navigator to address patient needs. This staff member will also regularly work with Hyacinth AIDS Foundation to integrate clinical and community-based services.*
